Dear Class of 2005,

Dreams and possibility, light and faith - those are the themes you express as you graduate from Regis College.

Another word for dream is vision; for possibility, the sense of mission; and for "I" who strives, identity. If you have spent your time here identifying a vision of life for yourself and striving to fulfill your human potential, you are dreamers and shapers indeed whose Regis years send you forth as a social force.

The faculty, staff, and rising generations of Regis students look forward to hearing more of of this vision, mission, and identity of yours. So do I, who came back to Regis as President and returning alum the same autumn of 2001 you arrived. The world has been in turmoil and crisis since then, but you brought your energy and enthusiasm to this College and we brought our dedication and commitment to you; and Regis, has been able to grow, to begin a transformation.

I dream of the meaningful, imaginiative work you will do in your chosen profession, of the love you will give the family, village, and society that turns to you; of the way you will take your patient waiting through four years and turn it into wise decisions, further achievement and productive skills of leadership and service for a lifetime.

The moment is now, the dream at hand. Now comes the day when all that you have been learning and becoming converges in a new integration. Spend it well, this possibility of a lifetime, extending the Regis mission of social justice in our world.

With every good wish and blessing,

Mary Jane England '59 M.D.
President, Regis College

Dear Wonderful Women of the Class of 2005,

Here we are at the end of the journey we began four years ago. To some, these past four years have dragged on and to others these past four years have flown by. Either way we look at it, we made it.

Before we continue on the path of life, I would like to share some life lessons from which we can all benefit . These lessons are ones that we can look back upon in years to come and still gain something.

There are two secrets to being happy and achieving success:

1. You have to laugh and find humor in every day.
2. You have to have a dream

The Seven Wonders of the World are: to see, to touch, to hear, to taste, to feel, to laugh, and to love.

We do not stop playing because we grow old; we grow old because we stop playing.

If God brings you to it, He will bring you through it.

Growing older is mandatory. Growing up is optional.

We make a living by what we get; we make a life by what we give

There is no better time to be happy than right now. Happiness is journey, not a destination.

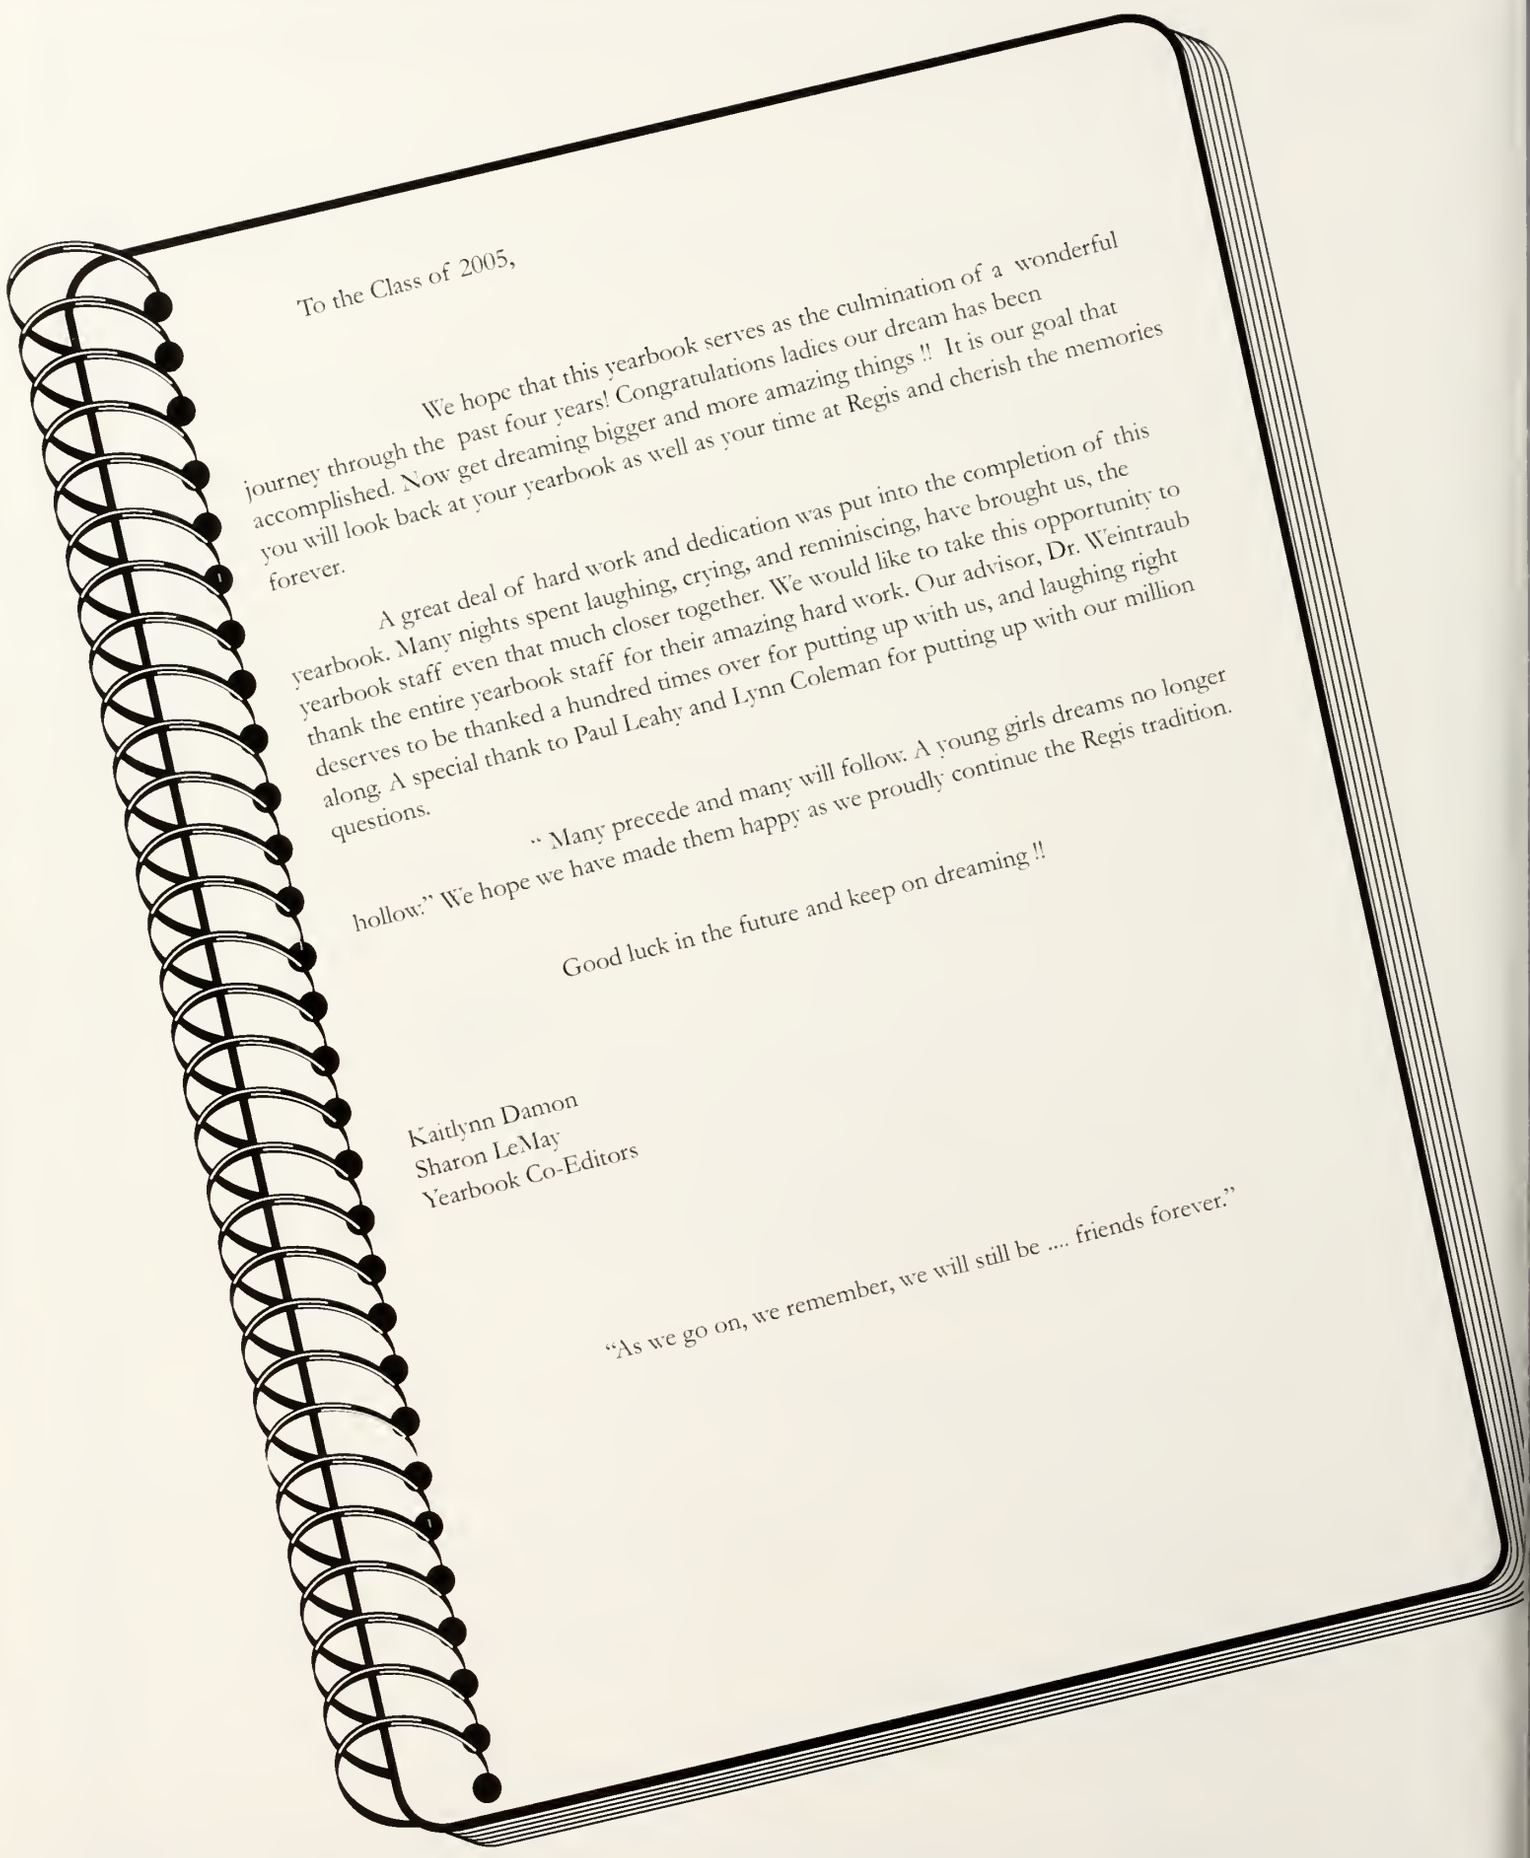
Work like you don't need money, love like you've never been hurt, and dance like no one is watching.

Most important, have no regrets!

Thank you, Ladies of the Class of 2005 for giving me the amazing opportunity to be your "fearless leader." I truly appreciate everything you have done to inspire me. Thank you for the unending support and belief. Most important, thank you for all of the memories.

Good luck in all of your great endeavors and I know that whichever path you may choose, it will be a successful and most triumphant one.

With love and honor,
Lauren Pullia
Class President, 2005



To the Class of 2005,

We hope that this yearbook serves as the culmination of a wonderful journey through the past four years! Congratulations ladies our dream has been accomplished. Now get dreaming bigger and more amazing things !! It is our goal that you will look back at your yearbook as well as your time at Regis and cherish the memories forever.

A great deal of hard work and dedication was put into the completion of this yearbook. Many nights spent laughing, crying, and reminiscing, have brought us, the yearbook staff even that much closer together. We would like to take this opportunity to thank the entire yearbook staff for their amazing hard work. Our advisor, Dr. Weintraub deserves to be thanked a hundred times over for putting up with us, and laughing right along. A special thank to Paul Leahy and Lynn Coleman for putting up with our million questions.

" Many precede and many will follow. A young girls dreams no longer hollow." We hope we have made them happy as we proudly continue the Regis tradition.

Good luck in the future and keep on dreaming !!

"As we go on, we remember, we will still be .... friends forever."

A dedication to the Class of 2005 :

This book is dedicated to the class of 2005. Over the last four years we have bonded in good times and bad, through smiles and tears, but has made us the women we are today. We came together in 2001 as complete strangers and have grown in numbers to become life long friends. We depart from Regis College in 2005, as "sisters."

"Are we going to be friends forever," asked Piglet. "Even longer," answered Pooh.

The History of Regis College

Born on a dream of four sisters of Saint Joseph

Regis College is a Catolic liberal arts and science college. It was founded in 1927 by the Congregation of Sisters of St. Joseph of Boston and has more than 10,000 graduates worldwide. The College offers full-and part-time study on the undergraduate and graduate levels. Located in Weston, Massachusetts, Regis College is in a great metropolitan area of Boston, just twelve miles from the center of the city.

The College occupies suburban, 168 acre site which was origionally the Morrison estate. There are more then 1,300 students (full-time, part-time, undergraduate and graduate) who form a community of scholars able to express their best selves in pursuit of academic excellence at Regis College.

Ladies, Start Your Engines...

Do you remember move in day ? Meeting your neighbors and roommate? Not knowing what life would be like, or what lay ahead in the next four years? New places, new faces, and yet something clicked with all of us. The Opening BBQ gave us a chance to meet the campus and make friends, many of whom we still have today. On September 11th, our world came crashing down, and from the ashes came a new breed of Regis women, strong and united. The bond from that day gave us sisters and friends that will last a lifetime. The infamous First-Year seminar gave us another place to bond, while patiently earning our guest privileges at the Real Life Series. Freshman year was a time of transition, reflection, late night cramming and our first encounters with the comforts of our new home.

"This one's for the girls ...."

No longer rookies on campus, 2002 gave us clout, experience and new memebers of our campus community. We began to take on leadership positions, deciding what roles we would fill in the coming years. While serving the campus as leaders, we also served dinner at the Christmas Banquet, showing that Sophomores make lovley women and even fabulous waitresses. Declaring a major was our biggest stress, and while most of us would change several times over, we never lost sight of the importance of that choice. By the end of the year, many of us linked up as part of the Daisy Chain at Graduation, looking on and imagining where we would be soon enough. The times, they were a changing, but we were ready, fearless, fun females.

Oh we're halfway there .....

..., living not only on a prayer, but on Dunkin Donuts and pizza. Upperclass women diving into a world of seminars, projects, and internships. Our class rings we received in September were a reminder that the end was in sight, if we only kept our eyes looking forward. Our time at Regis was going by way too fast. Junior year brought us trips to study abroad in England, Ireland, Spain, and beyond, while for others it brought us a move to Maria Hall. We were sharing what we had learned with a new class of women, waiting for our turn to be on top. Junior year gave us the freedom of still being here, along with the uncertainty of what lay ahead, as senior year loomed over us. In the end,we were almost there, wishing we could never let go of it all.

Junior Ring Ceremony

"With one hand, one heart, one voice, we can"

The beauty of the Tower Gardens was the setting for our Junior Ring Ceremony. As a class, we blessed our class rings and other treasured items, reflecting on the years past and those to come. The class ring symbolizes our memories of Regis, keeping the college's two major symbols - the Tower and Crest, close to our hearts. With the help of a reflection by our beloved Dr. Collamati, we looked at the ceremony as a day we would cherish forever, marking another milestone in our Regis lives.

Some People

Some people come into our lives quickly and go.

Some people move our souls to dance

They awaken us to new understanding with the passing whisper of their wisdom.

Some people make the sky more beautiful to gaze upon.

They stay in our lives for awhile, leave footprints on our hearts, and we are never, ever the same.

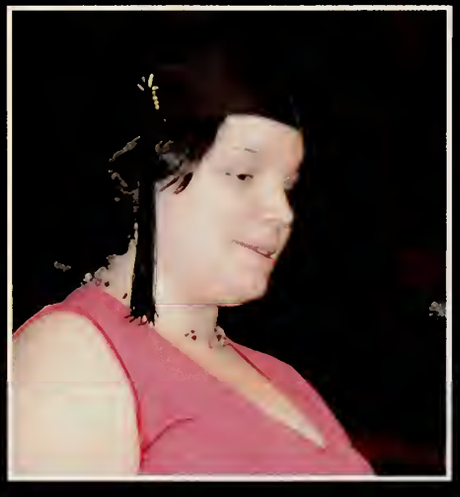
Cap & Gown Ceremony

If we were ever going to be in denial about being seniors, Cap and Gown Ceremony was the first of many reality checks. We received our caps and gowns, blessed by our faculty as we stepped into our senior year with high hopes aspirations. It was a time for us to see how far we have come as a class and marvel in our accomplishments as a united and truly unique class.



Hoop Rolling

'Twas the night before hoop rolling and all through the hall, glue guns were burning, heads banging on walls. With all of the seniors scrambling for ideas, thinking of people and hoops from past years. Tired and weary, we carried our wares, guesses of a winner were far from our cares. In shoes and bare-feet we ran 'cross the grass, some hoops survived, others landed with a crash. To the winner went future success, and hope of wishin', all from surviving this Regis tradition.

September 11th

None of us will ever forget where we were that day. Regis was that place, harboring us from the storm brewing outside our new world. We felt so alone, in a new place, with new faces, not knowing who to turn to or where to go. That day, we as a class turned to one another for support, looking to strangers for the support that would make us friends for a lifetime.

The tragedy of that day created bonds that will never be broken- a Regis College class of women stronger, more passionate, more united than any that has come before or will ever again. We are unique because of that day, opening our arms to those who stood outside our doors. Through the years, we have shed tears of sadness and of joy, but all are reminders of the tears that bond us forever.

We, the Class of 2005, have continued to remember and honor the day our world changed. The September 11th Memorial became a class tradition; a point of reflection for us to remember where we were and what we have become as the years pass. Every year we have gathered together under the glow of candles to remember the hopes and prayers they symbolized that first night on the Parterre. Four years later, those beacons still shine, but in different ways. They have become reminders of the women we were, Freshman new to the college world. While the world outside changed, we have become- women ready to embark on a new journey in this radically different world.

We will never forget that fateful morning, nor will we forget the women that helped us through.

The Stars of Residence Life

Life was simply elementary
When you taught us to
spell **Eleemosynary.**

And now as we leave our
Alma Mater, with will as
strong as **Lysistrata**.

Each of us can say to thee
Thanks for what has come
Out of Me.

Thank you for the time
you took, to make the tales
in our **Jungle Book.**

For the **Independence**
you've nurtured with care
We take from Weston,
Mass to **Ludlow Fair**.

From **Daughters of
Heaven** to being behind
the scene, we've taken on
large roles and small ones
plus what is in between.

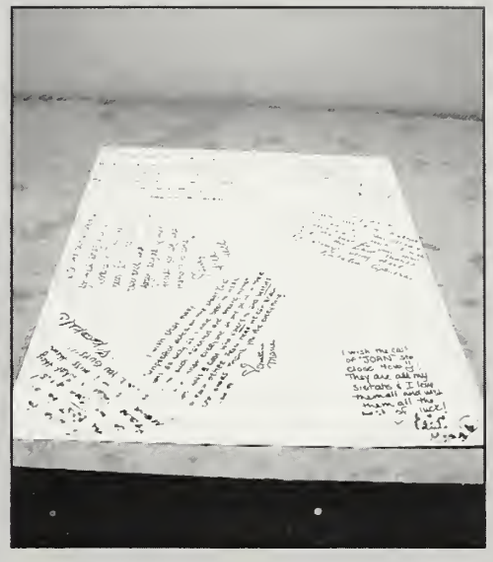
By the **Bog of Cats** or
deep in Berlin, No matter
the setting, we still look
back and grin.

Dialect and dance steps
were new things to learn,
or how to tie up **Joan** and
make her burn.

Frans is the force behind
How I learned to Drive,
While Steve taught us the
basics of tech and design.

With Wendy we directed,
and made mistake after
mistake, but we all still
claim, **"I Didn't Cause the
Earthquake!**"

Theatre Company



We staffed and rehearsed our **Vagina Monolgues**,
While the black box became everything from Vietnam to a bog.

We spent our nights deep in the **Cabaret.**
And before we take our final bow, we would like to say;

The theatre will always have **A Piece of my Heart,**
With friendships and memories that shall never part.

Thank you for showing us the **Importance of Being Earnest,** For all you guidance as we set out on a quest.

We hope to leave behind our unique **Testimonio**,
knowing we've been a part of sixteen amazing shows.

Thank you to our professors
Dr.Wendy Lement, Dr. Frans Rijnbout,
Steve Hall and Lis Antonecchia for
all that you have done...

Congratulation to the Class of 2005! We Hope Everyone Has a Bright and Hopeful Future!

-Yearbook Staff

Class of 2005's Winter Wonderland

The Tower rings
Are you listening?
Our Professors
Are insisting
We need to do work
Senioritis is a jerk
Graduating in 2005

Freshman sem was not funny
Hey Financial Aid where's my money
Had a nice Junior Ring
Can't wait for the Spring
Graduating in 2005

In the dorm a microwave's on fire
And the RA's checking all the rooms
We're just here to find our future bridesmaids
We don't even care about the grooms

Later on we'll perspire
Cuz our room
Feels like it's on fire
Our parking is gone
We stay up till dawn
Graduating in 2005

In the Springtime can we have a good band?
What about a policy on alcohol?
That's ok we don't need one, no Ma'am
Because there stll is drinking in the halls

6 More Months
Ain't it thrilling
We won the Series
Thanks Curt Schilling
We'll never forget the friends that we met
Graduating in 2005
